

SITEX.Network

Topical Day 2019 (20-21/11/2019, Ljubljana, Slovenia)

Governance of radioactive waste management

Registration and information: <http://www.sitex.network>

For this first Topical day, SITEX.Network has the pleasure to invite

& Marie Kerveillant (Post-Doctoral researcher, ESCP Europe, France)
& Céline Parotte (Senior researcher, SPIRAL research center, Belgium)

key researchers in the field of Governance of radioactive waste management, who obtained their PhD's a few years ago, respectively on:

- The role of the public in the French nuclear sector : The case of "local information commissions" (CLIs) for nuclear activities in the West of France,
- The Art of Government of High-Level Radioactive Waste. Comparative Analysis of Belgium, France and Canada.

The objectives of this Topical day are to have an overview of their work, as well as to exchange on key challenges facing our organisations in this field.

Preliminary agenda

20/11/19 (14:00 – 18h30)

- Welcome, agenda and objectives of the Topical Day.
- General presentation of SITEX.Network.
- General presentation of the work of Céline Parotte and Marie Kerveillant.
- Exchanges on the topic:

Dealing with uncertainties in the decision-making process for the long-term management of radioactive waste.

Selection of key questions:

When registering, participants are invited to provide key questions associated to this topic on which they would like to exchange. The key questions will be selected and communicated by the end of October 2019.

Practical aspects:

Each selected key question will be introduced by a short presentation. Then participants will exchange, with the objective to reach a mutual understanding of the different points of view and faced challenges.

21/11/2019 (9h30 – 13h00)

- Exchanges (continued)
- SITEX.Network activities and programme of work for the coming years: an overview.
- Summary of the exchanges and conclusions.
