

SITEX Benchmark on Reviewing Approaches

Agenda second meeting 12-13/04/2021

Online workshop

DAY 1 - Monday, April 12th 2021

09.30 Introduction and overview of the project

09.45 Presentation of the safety case update (FANC) + discussion

10.45 Break

11.00 Presentation of the reviews made by the participants + discussion

13.00 Lunch break

14.00 Break out groups - discussion between:

- the regulatory body regulatory body including both regulators and TSO's on one side;
- the civil society members on the other side.

Aim is for each group to develop its own agreed position in respect of strengths and weaknesses of the fictive safety case and further information needs. However, if a common position is not possible, then the range of positions can be recorded for discussion.

16.00 End of the first day

DAY 2 - Tuesday, April 13th 2021

09.30 Presentation of the break out groups results by the reporter from each group

10.30 Break

10.45 Plenary discussion: How to go forward with the reviews?

- Next step to go forward in the decision process?
- What are the remaining open issues?
- Is there consensus?
- Are there remaining divergences?
- SITEX next steps

13.00 Lunch break

14.00 Feedback session - lessons learned from the benchmark for real national programs

- participative decision process
 - timing of CS engagement (e.g. in SC development process)
 - ways to make participation easier for CS.
- reviewing approaches
- difficulties encountered to find consensus
- how to solve divergences?
- how to go forward when divergences remain?
- how to take into account intergenerational aspects?

16.00 End of the workshop
